

Transform Your Business with Utthunga's **Enterprise Cloud Solutions**

Lay the foundation of modern and efficient business operations using our advanced and innovative cloud solutions.

The key differentiator that sets us apart from the rest is our full suite of enterprise cloud solutions. From adoption, integration, and migration assistance to cloud-native application development, from cloud computing and hybrid/multi-cloud solutions to SaaS, PaaS, and IaaS, we cover it all. Also, our robust security and scalability capabilities make it possible for organizations to confidently store and process sensitive data, and scale their operations as needed to meet changing business requirements.

Whatever your cloud requirement is, our technology partnership has you covered. Connect with us now to streamline operations, enhance productivity, and reduce costs while maintaining the highest level of performance.

**Delivering Resilience, Intelligence, Security,
and Scalability with Cloud**

Our comprehensive **Cloud Infra Offerings** in a Nutshell

Our Cloud Expertise

- Cloud Migration & Transformation
- Cloud Platform Setup
- Application Modernization
- SaaS, PaaS, IaaS
- Disaster Recovery and Business Continuity
- Containers and Container Orchestration (Docker, Kubernetes)
- Cloud Networking (Virtual Private Cloud, Load Balancer, Direct Connect)
- Cloud Monitoring and Management
- Industrial Cloud Solutions
- Private-cloud, Hybrid-cloud, and multi-cloud
- Cloud Security & IT-OT Cybersecurity
- Data Center Management & Support
- MNOC & NMS Services
- IT Management Services
- ITSM and Helpdesk Implementations
- Edge Computing Solutions
- Application protocols like MQTT, CoAP, DDS, etc.
- Cloud Compliance and Auditing

Applications We Build

- SaaS Applications
- Business Intelligence and Data Analytics Applications
- Remote Inspection & Monitoring Systems
- Visualization & Reporting Systems
- Microservices-based Applications
- Containerized Applications
- IIoT Platform in the Cloud
- IIoT Applications
- Business Continuity Solutions
- Serverless Applications
- IT Network & Security Solutions
- SD-WAN Technology Solutions
- Cloud-based Custom Applications
- Collaborative and Productivity Applications
- Real-time, Event-driven Applications
- Precision Dispenser Analytics Systems
- Batch Analytics Systems
- Sucker Rod Management Solutions
- AI/ML Applications and More

AWS

EC2

Lambda

S3

Kinesis

RDS

Redshift

Elasticsearch

Azure
